Karen do you have an email contact with LSP (Taylor Moss?) to get a criteria for ceasing the 24 hour drill monitoring due to hurricane. When will the monitoring crew be released?

Chris,

I was able to connect to my wireless connection at home. So, if you could forward Captain Moss's e-mail address or contact number, I will contact him to find out when State Police will make the call to cease operations for the Bayou Corne NG Seep Incident. And I will forward that information to EPA.

Thanks,  
Louis Martin
